QSL VIA SRAL, BOX 306, HELSINKI

HAMINA (10,000) a frontier fortress, an old garrison and sea town from the baroque period. One of the rare towns in the whole world with a circular city plan. In Hamina you can visit the house where Empress Catherine the Great of Russia and King Gustavus III of Sweden and Finland negotiated in 1783. The town has an important paper industry and a deep-water harbor.
